Country Club Update

Is the clubhouse open?

Although construction on the Village Country Club is nearing completion, the opening date of the clubhouse and Farmer's Table restaurant has not been set. However, the golf course, pro shop, driving range and Tennis Center are open.

Please check the Village webpage and social media pages for the latest updates. The clubhouse opening date will be posted once it is determined.

Inaugural Links 5K Run/Walk was a success

With 320 participants joining the inaugural North Palm Beach Links 5K Run/Walk on Oct. 26, the Village created another fun social event for people of all ages.

The 3.1-mile route provided a unique opportunity for people to explore the newly renovated Jack Nicklaus Signature golf course at the North Palm Beach Country Club

paths, shaded by oak trees, and stepped across soft grass with views of the Intracoastal, glittering ponds, and the gorgeous homes along the golf course.

A unique collector's finisher medal awaited everyone at the finish line, and a fabulous breakfast courtesy of Farmer's Table was provided. K2 Road Sports assisted the Village with managing the event.

TRASH COLLECTION DAYS 2019

- **Monday - Garbage & vegetation**
- **Tuesday - Bulk & recycling (multi-family)**
- **Wednesday - Garbage & yard vegetation**
- **Thursday - Bulk & recycling (single-family)**
- **Friday - Garbage & yard vegetation**

NOTE: When a holiday falls on a Thursday, bulk & recycling pick-up will be the Tuesday before

Trash, recycling, bulk item pickup

The Village provides trash collection services three days a week for household garbage and vegetation, and once a week for recyclables.

Residents must provide their own trash cans and place them outside for "side door service." Bulk items, vegetation, and recycling should be placed by the curb. Everything should be ready for pick up by 7 a.m.

And whenever a holiday falls on a Thursday, bulk and recycling pick-up will be done on the Tuesday before. This way, those items will not be left outside for nearly two weeks.

Vegetation, trash or bulk items that come from any business or are generated by a hired contractor, such as a landscaper or home repair person, must be hauled away from the property by the contractor. Local contractors should know this already.

For information call the Public Works Sanitation Division at (561) 691-3440.

Everyone can help reduce flood costs & risks

The Village of North Palm Beach is a proud participant in the National Flood Insurance (NFIP) Community Rating System, working to maintain a 15% reduction in flood insurance premiums for residents while carrying out flood management measures designed to protect life and property from future flooding.

Here are some ideas to help prepare for next hurricane season:

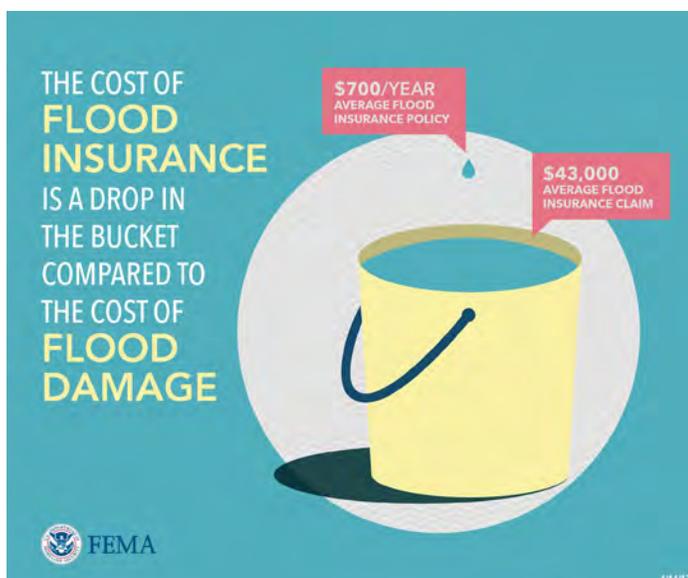

Flood Safety Measures

For your own safety, there is no substitute for advanced planning and preparation for flood events.

- ✓ Do not drive around road barriers. Roads may not be distinguishable from canals. Turn around, don't drown - never drive through flooded areas.
- ✓ Do not walk through flowing water. As little as six inches of moving water can knock you off your feet.
- ✓ Stay away from power lines and electrical wires.
- ✓ Evacuate the area as soon as the order is given or sooner if possible. Evacuation orders are issued because of imminent storm surge, not for wind threat. If evacuation becomes necessary be sure to turn off all utility services at the main connection.
- ✓ Find valuable information on the Village's Hurricane Preparation webpage at www.PrepareTheVillage.com. There you will find the Palm Beach County Hurricane Evacuation Zone look-up tool, and can find out which Evacuation Zone your property is in. You should know which Evacuation Zone you are in if an evacuation order is issued. Spending a little time now to familiarize yourself with the resources on the website may help avoid a lot of trouble later on.

Protect your property from flood damage

There are practical and cost-effective methods for reducing

or eliminating your property's exposure to flooding.

- ✓ Check your building for water entry points, such as doors, low windows, and dryer vents. These can be protected by the construction of low walls, barriers, or berms to keep water away from the building.
- ✓ You could elevate electrical equipment and furniture, and install backflow valves.
- ✓ Find more information at FEMA's website, www.Ready.gov/floods.
- ✓ Be sure to check with the Village at (561) 841-3365 to see if a building permit is required for flood protection measures. Build responsibly!

Village staff members are available to provide flood-related property protection consultations, including a site visit and drainage evaluation. Call (561) 841-3365 for more information about these services.

The Cost of Flood Insurance is a drop in the bucket compared to the cost of flood damage

Whether or not your property is in a high-risk flood zone, you should consider buying flood insurance. Losses due to flooding are not covered in a typical homeowners' insurance policy. Flood insurance is available for residential and commercial buildings and/or the contents of a building. Renters should have a flood insurance policy to cover their possessions. Call your insurance agent today, go to FloodSmart.gov, or call (800) 427-4661, to find an agent, learn important flood-related information, and to ask your agent to ensure you purchase the coverage you need. There is usually a 30-day waiting period before the policy will become effective.

Know Your Flood Zone

Call the Village Building Division at (561) 841-3365 to find out if a property is:

- ✓ located in a high-risk flood zone
- ✓ susceptible to coastal erosion

Police offer tips to keep your home safe during the holidays

December is a busy month for most people. There are several holidays, school and work vacations that take place in December.

The police department would like to provide you with some useful information on how to safeguard your home in the event that you will be traveling this holiday season.

It is important to have a plan laid out prior to leaving your home for an extended period of time.

- If at all possible, have somebody watch your home while you're away. Someone who can be trusted (e.g. relative, friend, neighbor etc.).
- If you're unable to find someone to watch your home, make arrangements with your local post office to put a hold on your mail. Burglars often look to see mail piling up when scouting out a potential home to burglarize.
- Make arrangements for any packages to be delivered to be held as well until you return. Packages sitting by

the front door are considered an added bonus to burglars looking to victimize a home.

- Make sure that all exterior lighting is in operation, preferably on a timer if possible.
- If your home has an alarm, make sure that all entry/exit points for the system are in operation and make sure that your alarm company has an emergency contact on file in the event that the alarm is activated and police respond.
- Lastly, social media is a very popular tool where people like to share their everyday lives. Be cautious when posting about your travel plans because if this information should fall into the wrong hands it may expose you to a potential home burglary.

Flood Warning

Residents should be aware that the Village of North Palm Beach is linked to Palm Beach County Emergency Management Division, which will advise our community of impending storms and flood threats. Stay tuned to local television and radio stations and the Weather Channel for up-to-the-minute information.

The Village Emergency Operations Center will receive detailed and site-specific information regarding storm conditions, flood threats, updates, warnings and evacuations.

This information will be provided to the public as it becomes available through the Village website (www.Village-NPB.org), Facebook and Twitter (@VillageNPB), and on www.Nextdoor.com, as well as the Village Emergency Alert System.

Sign up to get Village storm updates by text or by email at www.PrepareTheVillage.com. Click "Stay Notified" and enter your information. The Village emergency number is (561) 904-2147.

Are you doing your part to protect Village waterways?

Stormwater runoff comes from rainfall that runs over the ground's surface and into our waterways. As it flows over land into canals and streams, it picks up debris, chemicals, oils, fertilizers, grass clippings, pet waste and other pollutants.

You can help by cleaning up, picking up, or relocating these materials so runoff won't wash them into our waterways.

Take time to educate yourself and others about the negative impact of stormwater runoff into our waterways at www.StormwaterAndMe.org.
